

## Corrigendum

## Corrigendum to 'Multisensor data fusion: A review of the state-of-the-art' [Information Fusion 14 (1) (2013) 28–44]

Bahador Khaleghi<sup>a,\*</sup>, Alaa Khamis<sup>a</sup>, Fakhreddine O. Karray<sup>a</sup>, Saiedeh N. Razavi<sup>b</sup><sup>a</sup> Pattern Analysis and Machine Intelligence Lab, University of Waterloo, Waterloo, ON, Canada<sup>b</sup> Department of Civil Engineering, McMaster University, Hamilton, ON, Canada

The authors regret the minor error in Fig. 2 (which depict several mathematical theories of data fusion) in the above paper. The random set theory is incorrectly illustrated as random finite

set theory. The corrected figure is shown below. The authors would like to apologise for any inconvenience caused and take this opportunity to present the correction.

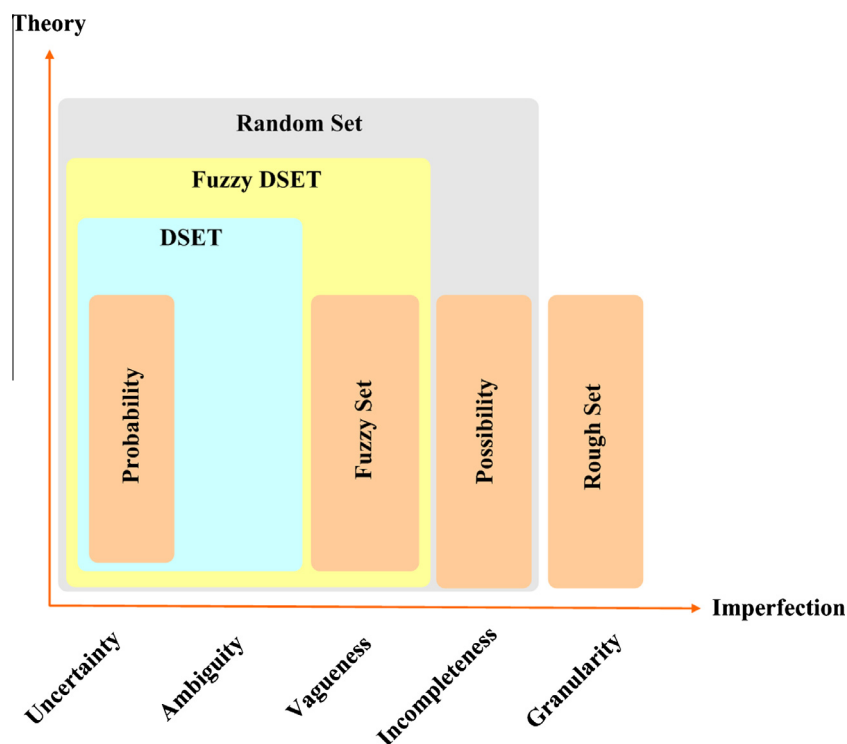

Fig. 2. Overview of theoretical frameworks of imperfect data treatment (note: the fuzzy rough set theory is omitted from the diagram to avoid confusion).
